SUBJECT: CLEANING AND SANITATION AUDIT

The Annual Cleaning and Sanitation Audit was completed for your facility. The results are attached.

The audit criteria is based on established cleaning industry standards, work methods, training and published procedures. Expectations are measured by considerations for the impact of daily activity to insure that a facility will not be unfairly reviewed.

Analysis information from the audit inspection revealed the following areas of significant interest:

Custodial Allocation: 25K 5.5 Present: 5 Difference: -.5
Workman's Comp Cases: 0

Areas that need correction:

1. Stock all custodial closets with new germicidal
2. Scrub classrooms floors (remove dirt)
3.
4.

Performance capabilities on floors or surface materials containing asbestos were noted. Audit criteria were adjusted accordingly to minimize negative effects on measurement of custodial performance.

CLEANING AND SANITATION AUDIT
SCORING AND GRAPHIC PRESENTATION

Scoring is based on visual inspection with results expressed by three grade categories:

CATEGORIES:

S = Excellent -

U = Unsatisfactory -

FACILITIES SCORED:

S = 98%

U = 2%

The scored results are presented graphically to indicate the relative cleanliness and sanitation level of key areas of the facility environment. This method fairly pinpoints acceptable quality standards and obvious deficiencies in the cleaning services program. The custodial staff's responsibility is to provide a safe and sanitary environment for the education process. Analysis of individual cleaning assignment areas will measure the custodian's performance.
